The attached drawing pictures a part of the port of Galati. The numbers which follow correspond to the numbers on the drawing:

1. The old dock can berth four vessels of 1500 tons each.
2. Slipway for the Danube fleet, as well as for vessels under construction. In February there were four minesweepers of 3400 tons begun by the Germans and being completed by the Russians. In the shipyards there were four boats of five and six tons, and two of 10 to 12 tons, which will be used for minesweeping.

3. The following vessels were in the arsenal shipyard:

VARASTI	-	destroyer	-	1800 tons
MIHAILOSCU	-	gunboat	-	300-350 tons
MEU	-	torpedo boat	-	300-350 tons
DELFINUL	-	submarine	-	600 tons (waiting for repairs)

50X1-HUM

The arsenal itself is fully equipped with modern German machinery, but sabotage on the part of the Rumanian workers keeps the output low.

4. Dept for munitions and mines for the Danube Flotilla. There are workshops allegedly for the manufacture of gas as used in chemical warfare. These depots and workshops are built in the nearby hill.
5. Headquarters for the Rumanian Navy, including schools for specialists and ordinary seamen.
